

National University of Lesotho

Dr. Mamoeketsi Nkiseng Ntho

Dr Ntho is a senior lecturer in the department of Development Studies at the National University of Lesotho. She has a PhD (Wits) in Development Studies with specialization in Gender and Development policy. She teaches and supervises research at undergraduate and master's levels. She also teaches two modules of the MSc in Sustainable Energy. Her publications are mainly on gender and development including, transport, natural resources, governance, energy and education. She is currently serving as the Faculty of Humanities Quality Assurance Coordinator.

Mr. Retselisitsoe Thamae

Retselisitsoe I. Thamae is a Senior Lecturer in Economics at the National University of Lesotho and a member of the Energy Research Centre and the Central Bank of Lesotho's Monetary Policy Committee. His research interests include issues related to energy, fiscal and monetary policies, and some of his work appears in journals such as Utilities Policy, Int. J. Economic Policy in Emerging Economies and Economic Analysis and Policy.

Mr. Tsita Molapo

Tsita Molapo is a Lecturer in the Department of Physics and Electronics at the National University Lesotho (NUL) and a member of the Energy Research Centre (ERC). He holds Masters of Engineering in Energy Systems Engineering. He was responsible for curriculum development of both Short Courses under Southern African Sustainable Energy Initiative (SASEI) programme and Master of Science (M.Sc.) in Sustainable Energy sponsored by Renewable Energy Cooperation Programme (RECP) for the Energy Research Centre (ERC) of NUL. He teaches a number of modules in the ERC programmes.

Dr. Moeketsi Mpholo

Moeketsi Mpholo is the leader of the Energy Research Centre at NUL. He has published widely on Solar and Wind Energy matters. He continuously works with a number of companies and development partners on renewable energy projects. Moreover, he collaborates on research projects and teaching programs with a number of regional universities and three American universities. His current teaching load and passion address soft skills for scientists, such as, critical thinking, written & oral communication, and entrepreneurship in order to contribute to a decent standard of living for all.

Professor Leboli Zak Thamae

Prof. Thamae is an Associate Professor in the Department of Physics & Electronics at NUL. He was the Head of Department from 2010 to 2016 where he led the development of M.Sc. in Sustainable Energy and the establishment of the Energy Research Centre. He served as a Board Member and Chairman of the electricity regulator, Lesotho Electricity and Water Authority (LEWA). He currently serves as the Postgraduate Coordinator for the Faculty of Science and Technology at NUL. His research interests include modelling and simulation of energy systems (hybrid renewable energy systems – HOMER, energy/electricity demand – MAED and energy/electricity supply – MESSAGE), supported by strong exposure in strategic leadership, corporate governance, policy, reform and regulation of infrastructure services (electricity, telecommunications and broadcasting).
